

# VSLIDER DOCUMENTATION

**Overview :-** vSlider Module lets you display a responsive slideshow of articles in 18 different skins with 387 different effects including 74 3D effects. It is an eye-catching slideshow to display a set of articles with user-defined transition between them. It is easy to get started with but offers a number of customization options for more advanced users. The special feature of this Module is that articles to display must be short but still cover your idea, and you can also have image included in this too! Messages and articles can be displayed as many as you want, and this module will automatically 'slide' them for you!

vSlider is perfect module for corporate websites, blog websites, news websites, magazine websites, sport websites, travel websites, finance websites etc
